

## The Classroom

Noise, children, teachers

All trying their best

To teach

To learn

To draw

To write

To read

Emma, like always, helps around

The students go deep into work

Knowing they have to make everyone proud

They sit with friends

Talk with friends

But at the same time follow expectations

The rooms background helps

It reminds them of rainbows

They know they're safe

They know they're smart

They know that they're alive.

Armaan
