Last Tuesday we held our Edgars Creek Primary School Fun Run. Students from all levels completed courses in and around the school grounds. We were very impressed with the high level of effort and enthusiasm the students put into their running leading up to the event. It was tremendous to see students from Year Prep to 6 dressing up in their house colours.

The competition was close throughout the day with McDonald maintaining its lead to win the House Shield for the 2nd year running.

Students are to be commended upon their level of effort and sportsmanship on the day. With the focus on doing "your personal best" and participation. Our School Values were on display, in particular, the values of Respect, persistence and excellence. The students were well supported by many parents on the day.

Congratulations to our school House Captains who did a fabulous job, leading the junior races and helping out on the day. Thank you to the many teachers who helped set up the course and prepare the students for this event. A great day was had by all!

# Welcoming Wellbeing

## CHILD WELLBEING

The Australian Research Alliance for Children and Youth (ARACY) outlines six factors which should be present for a child or young person to experience good/high wellbeing, which are:

**Loved and safe** - positive family relationships and connections with others along with personal and community safety. Children and youth who are loved and safe are confident, have a strong sense of self-identity, are resilient and have high self-esteem.

**Material Basics** – children have access to the things they need to live a normal life. They live in adequate and stable housing, with adequate clothing, healthy food and clean water and the materials they need to participate in education and training pathways.

**Health** - Healthy children have their physical, developmental, psychosocial and mental health needs met.

**Learning** - Children learn through a variety of formal and informal experiences within the classroom and more broadly in their home and in the community. Children who are learning, participate in and experience education that enables them to reach their full potential and maximise their life opportunities.

**Participating** - means children and youth are supported in expressing their views. Their views are taken into account and they are involved in decision making processes that affect them.

**Identity and culture** - Having a positive sense of culture and identity is central to the wellbeing of children and is particularly important for Aboriginal and Torres Strait Islander and other culturally and linguistically diverse children. This includes having a sense of spiritual wellbeing.

You can read more about these factors here:
