## WHAT WE HAVE BEEN LEARNING?

We have been learning about writing in order!

1

Fill the cup with soil.

2

Place bean in the cup.

3

Water it.

Students thought about what we need and do to plant a bean.

Then, we drew and wrote about our experience!

We cannot wait to see them grow!

## EXTRA CURRICULAR OPPORTUNITIES AT ECPS 2024

Students have been given extra-curricular opportunities during lunch and recess through our Clubs Program. We are very excited to be offering these opportunities again in Term 2.

**There are several benefits for participating in extra-curricular activities including:**

- Allowing children to explore their interests and this helps in broadening their perspective of the world.
- Being a part of a group/activity helps children meet other children with similar interests, thereby improving their social skills.
- Academic performance is improved. Through participation students learn to manage time, improve organisational skills and self-confidence.
- Creates a network between individuals and their community. Students can learn the importance of giving back to the community and helping those in need.

# Welcoming Wellbeing

## CHILD WELLBEING

The Australian Research Alliance for Children and Youth (ARACY) outlines six factors which should be present for a child or young person to experience good/high wellbeing, which are:

**Loved and safe** - positive family relationships and connections with others along with personal and community safety. Children and youth who are loved and safe are confident, have a strong sense of self-identity, are resilient and have high self-esteem.

**Material Basics** – children have access to the things they need to live a normal life. They live in adequate and stable housing, with adequate clothing, healthy food and clean water and the materials they need to participate in education and training pathways.

**Health** - Healthy children have their physical, developmental, psychosocial and mental health needs met.

**Learning** - Children learn through a variety of formal and informal experiences within the classroom and more broadly in their home and in the community. Children who are learning, participate in and experience education that enables them to reach their full potential and maximise their life opportunities.

**Participating** - means children and youth are supported in expressing their views. Their views are taken into account and they are involved in decision making processes that affect them.

**Identity and culture** - Having a positive sense of culture and identity is central to the wellbeing of children and is particularly important for Aboriginal and Torres Strait Islander and other culturally and linguistically diverse children. This includes having a sense of spiritual wellbeing.

You can read more about these factors here:
